## Let's have fun

**1** | **LAUFEN** *Tricolor* is the result of combining three coordinated colors in a fusion of glossy and matte forms (HALL 10 | B11 B19 C12 C16; MDW26 Laufen space Milano, via Manzoni 23). **2** | **MARIMEKKO**'s newest floral designs *Kukasta kukkaan* by Erja Hirvi take the form of bold textile installations and a shoppable curation of ceramics. (MDW26 Osteria Fiori di Marimekko, via Ascanio Sforza 75). **3** | *iQ Motion* by **TARKETT** introduces a refined palette of 16 natural tones, drawing inspiration from the enduring appeal of terrazzo. **4** | The **PLH DUO** lates feature a white-painted aluminum base and levers, paired with a Smile Plastics Kaleido front panel. The *DUO* collection is an homage to circularity and stems from the collaboration with Mazzucchelli 1849 and Smile Materials (MDW26 PLH Showroom Via Voghera 4/a). **5** | Granite-cement bases and a lightweight structure define the *Nolo* table by Simone Bonanni for **S-CAB**, shaped by pure volumes and essential geometries (HALL 18 | E22). **6** | Designed by Catherine Urban, the *Trilli Halo* lamp by **CASARIALTO** takes inspiration from the geometric shapes and design of the 60s. **7** | The *Succulentia* collection of vases and centerpieces by Elena Salmistraro for **BOSA** is inspired by the observation of the plant world, particularly that of succulents (Hall 24 | D07).
