FUTURE

Poliform

Forever luxurious and always embracing interesting forms (see the Wallace armchair for an example), Poliform is the place to go for real accent pieces. The Owen chair is new to the collection and called to us with its reassuringly chunky wooden frame and plush, couture-inspired upholstery – picture relaxing in it with a nightcap at the end of a long day. poliform.it

Lema

We love Lema for its incredibly slick designs and the new Poltrona Omega lounge chair by Federica Biasi is no exception. Drawing on 1950s style, with a seat that sweeps down against a sleek metal structure in an almost hammock-like figure, it looks cossetting but still exceptionally smart. lemamobili.com

S-CAB

Looking for pattern, colour and playfulness? You'll find it all here, with pieces in a palette of soft pink, mint, green and cream – not to mention the new indoor-outdoor Brezza Relax seat, with its cheerful stripes and cushioned form. A metal frame raises the upholstery off the ground, so it's great for outdoor living rooms – but we would just as happily set a few in a row indoors for a fun take on a sink-into family sofa. s-cab.it
